

Section 002 Groups

21	22	23	24	25	26	27
Nolen Armstrong	Jalen Yen	Deron Zhu	Elijah Iacovoni	Porter Malcolm	Jacob Vasicek	Riley Gauthier
Ryan Chung	Patricio Gonzalez	Rhia Gupta	Matthew Gordon	Steven Wall	Sajiv Shah	Gabriel Neathamer
Hadi Nassar	Abbey Allion	Christian Matti	Evan Link	Vanessa Danci	Mohamad Mohsen	Maxwell Franz
Nicholas Henry	Ava Baak	Joao Figueiredo	Joshua Benz	Relic Law	Benjamin Drabik	Sebastian Lopez
Ava Martin	Mehmet Osar	Mitchell Brekhush	William Peper	Niklas Russell	Jacobo Rosillo-Hays	

- Sit according to your teams
- Each team can set up their own Google Drive Folder
- **Communicate with your team** about absences or any issues!!!!!!

ME350 FA 2025 Section 002

Lab #2

Monday 12:30 PM - 2:30 PM

Haoran Shi

haorshi@umich.edu

Office Hours: 3:00 PM - 5:00 PM Monday (Zoom)

Reminders

- Join the [ME350 Slack channel](#)
- Read [Project Description](#)
- General Questions
 - Ask in the the appropriate ME350 Slack channel
 - Office Hours: [\[LINK\]](#)

Viewing Feedback on Canvas

In order for students to view ALL feedback provided by instructors for an assignment on Canvas, they should follow these steps:

1. Log into the course and click on the 'Grades' link.
2. Find the assignment and click the assignment name.
3. Click on 'View Feedback' to view all feedback including comments and any additional annotated comments made on the submission.

Calendar

- Scroll down on Canvas homepage to find the full calendar

	Sep 7	Sep 8	Sep 9	Sep 10	Sep 11	Sep 12	Sep 13
Lecture			Lecture 5 - Mechanisms: Analytical Synthesis (MU)		Lecture 6 - Motors/Actuators (MU)		
Homework			- Homework 1 Due (Mechanisms) - Homework 2 Released				
Lab		Lab 2 - ADAMS Tutorial Lab Assignment #1 Due - Sketch Blocks			Lab 3 - Linkage CAD Assembly Tutorial, Fasteners and bearings discussion / Individual ADAMS Lab Assignment #2 Due - Individual ADAMS Tutorial Graph + Individual Solidworks Links Team Expectations Agreement Due DR1 Section 1 Due	Lab 3 - Linkage CAD Assembly Tutorial, Fasteners and bearings discussion / Individual ADAMS Lab Assignment #2 Due - Individual ADAMS Tutorial Graph + Individual Solidworks Links Team Expectations Agreement Due DR1 Section 1 Due	
Project Timeline							
	Sep 14	Sep 15	Sep 16	Sep 17	Sep 18	Sep 19	Sep 20
Lecture			Lecture 7 - DC Motors (DB)		Lecture 8 - DC Motors, Transmissions (DB)		
Homework					- Homework 2 Due (Synthesis, ICs, MA) - Homework 3 Released (Motors)		
Lab		Lab 3 - Linkage CAD Assembly Tutorial, Fasteners and bearings discussion / Individual ADAMS Lab Assignment #2 Due - Individual ADAMS Tutorial Graph + Individual Solidworks Links Team Expectations Agreement Due DR1 Section 1 Due			Lab 4 Manufacturing Review and Project Work Lab Assignment #3 Due - Individual ADAMS Graphs using Individual Solidworks Links	Lab 4 Manufacturing Review and Project Work Lab Assignment #3 Due - Individual ADAMS Graphs using Individual Solidworks Links	
Project Timeline							

<--Gate Review 1 Out of Lab (Scheduled by Team)

ADAMS Introduction

Goal: To be able to use ADAMS so that you can model your designs in future labs

What is ADAMS?

- **A**utomated **D**ynamic **A**nalysis of **M**echanical **S**ystems
- Multibody Simulation Tool

Adams™

ADAMS Model

Today

Run through [Lab 2 Tutorial](#)

NOTE: *All of the below assignments will be submitted to your lab's Canvas page. For the Team Expectation Agreement and DR1, only one team member needs to submit a copy to the team assignment.*

Due next lab:

1. [Lab 2 Worksheet](#) (Individual Assignment)
 - a. Final Graph of ADAMS Tutorial
 - b. **CAD models of input, coupler, and follower links**
2. [Team Expectations Agreement](#) (Team Assignment)
3. Title Page and Section 1 of [Design Report 1 \(DR1\)](#) (Team Assignment)

ADAMS Pro Tips

- **Save early and often**
- Sometimes it is easier to start over than fix the linkage
- Right click on a data entry box → Field Info → Validate
 - This helps you figure out what the box needs to work
- When adding a link, right click to bring up a menu to select the exact point you want
- ADAMS makes lots of windows - sometimes they are hiding behind other windows
- Make sure you are aware of **Objects** vs. **Results Sets** in the Post Processor
- Use <r>, <t>, and <z> keyboard shortcuts to navigate

Goals for Today

Lab 2 Part 1

- Create first linkage in ADAMS
- Simulate linkage

Lab 2 Part 2

- Learn Post Processing tool
- Create plots and animations
